Dear JFCS Community,

Because of you, my story has a happy ending.

Please. Take just a minute to read this letter. Let me *thank you* for what you made possible.

My daughter, Cara, was born eight weeks premature. At the same time, I experienced severe medical complications and was not able to go back to work.

My husband and I were so overwhelmed. We did not have medical insurance. And my husband's income could not cover living expenses.

The future looked bleak until a nurse at the hospital told us about JFCS.

Within three weeks of working with a JFCS caseworker, Cara received a developmental evaluation; arrangements were also made for her physical and occupational therapies.

But that is not all. I also started to receive the medical support I needed, and shortly afterwards began working with a JFCS Career Consultant. Within three months I was back on my feet starting a new job.

I know this would not have happened without good people like you who give to JFCS.

Thank you. I may not know your name or your face. But I know you are part of the **JFCS community that changed my life** – and for that please know *I am so very thankful.*

Sharise Bailey
